

Dejavoo Z11

An Easy to Use Payment Experience

The Z11 countertop payment terminals provide an easy to use EMV payment experience for every business owner. With "On screen Help", easy access to frequently used options in the "Favorites" Menu, and a simple "Call Me" button to request a support representative callback, business owners love how easy it is to use.

The Z11 has a bright color touchscreen for signature right on the display for signature capture. Customize your Dejavoo payment device with a logo on the display. Upload multiple images programmed to scroll while the terminal is in idle mode.

BENEFITS AT A GLANCE

- NFC Contactless Reader
- Touch Screen
- Wifi, Bluetooth, Ethernet, and dial-up options
- Built in loyalty program
